[1] *Prior to October 2011, 'Fixed Lines' data that we collected included DID's (Direct Inward Dialling) Numbers. From October 2011, DID's are not included as they are not considered as direct lines.*

[2] *From 2011 onwards, (as nationwide mobile phone services were widely used) just the total number of payphones were collected*

[3] *Internet subscriptions from year 2010 inclusive of mobile internet customers*

From 2012. Internet Subscribers limited to Fixed and Mobile braodband customers (excl the few dial-up customers)

[4] *From 2018, LTE Fixed Modem Subscribers included in Mobile Broadband figure.*

[5] *Telecom densities are calculated based on projected mid-year populations from NBS.*

Fixed BroadBand for 2018 and 2019 are revised
